Lantra Slinger Signaller

Course Aims

To provide thorough theory and practical training in the Slinger Signaller role, to enable the candidate to pass the theory and practical assessments.

Recommended Duration: (Max 4 candidates per course)

Novice: 1 Day

Experienced: ½ Day (Assessment Only)

On completion of the course you will be able to:

- Describe the key requirements of health and safety legislation
- Define the responsibilities of those involved in lifting operations
- Interpret and apply the information within lifting plans
- Explain the use and limitations of equipment and accessories
- Describe how to care, maintain and store equipment and accessories
- Locate and interpret information located on tags and labels
- Inspect lifting equipment and accessories before and after use
- Evaluate loads and select the most appropriate lifting equipment
- Create a basic lift plan
- Demonstrate how to attach and prepare a variety of loads for movement using the appropriate equipment and accessories
- Employ clear methods of communication and signals to direct safe movement of the load
- Demonstrate how to safely detach and store lifting equipment on completion of movement.

Once you have passed and completed the course you will receive a certificate in training for Slinger Signaller, along with a Lantra card.

Please remember to bring a passport sized photo with you on the day if you are applying for a card for the first time, or if you require an updated photo on your old card.
