Lantra 360 Excavator below 10 Tonnes

Course Aims

To provide thorough theory and practical training in operating the 360 Excavator, to enable the candidate to pass the theory and practical assessments.

Recommended Duration: (Max 4 candidates per course)

Novice: 2 - 5 Days

Intermediate: 2 Days

Experienced: 1 Day Refresher Assessment

On completion of the course you will be able to:

- Carry out pre-start checks.
- Identify the basic construction components, and the purpose and use of all controls and gauges.
- Prepare the excavator for site and road travel.
- Travel over varying terrain, including rough undulating ground.
- Travel up and down substantial inclines.
- Manoeuvre the excavator in confined areas.
- Prepare the machine to excavate.
- Excavate below ground level on a variety of excavations in different ground types.
- Place spoil into various sizes of vehicles.
- Grade, spread and level different types of terrain.
- Remove and re-attach buckets.
- Place the excavator in the safe park position.
- Explain the loading and unloading procedures on and off a transporter.

Once you have passed and completed the course you will receive a certificate in training for 360 Excavator, along with a Lantra card.

Please remember to bring a passport sized photo with you on the day if you are applying for a card for the first time, or if you require an updated photo on your old card.
